COMMUNITY SERVICE CENTER TO BE ESTABLISHED

The College has been granted \$37,868 by the District of Columbia Title I Advisory Council to establish a Community Service Center for the Hearing Impaired.

To be administered by Public Services, the new program has as its objectives: (1) to coordinate services available from other agencies; (2) to provide centralized referral services for deaf adults, children and families; (3) to supplement and deliver group and individualized services; (4) to serve as a center for information; (5) to provide interpreting services for deaf people needing specific services available in other agencies; and (6) to provide other needed services.

The project will work out of 2010 Rhode Island Avenue, N.W., and will attempt to assist any hearing impaired citizen in the District of Columbia.

INFORMATION ON THE WORLD GAMES NEEDED

Carolyn Jones from the Library has made an appeal to any persons who attended the World Games in Malmo, Sweden. Carolyn is interested in collecting programs and other printed information about the Games.

The Library wants the information for its files but is also planning to share what is collected with station KRON-TV in California. KRON is in the process of producing a documentary on deaf athletes.
